

Test 7—Question 2: Number Sense

- 2** Katie, Lisa, and Janine ate pizza yesterday. They were asked to write down how much of the total pizza they each ate. The table below shows the amount each of the girls recorded.

Katie	20%
Lisa	$\frac{1}{4}$
Janine	0.3

Using the information in the table, explain on the lines below which of the girls ate the most pizza. Be sure to include the values you used in your explanation.
